Annex I: Specific requests from Panel PE6

> **Interview format and any other panel specific comments about your interview:**
>
> The panel will ask you to make a **10 minute presentation** of yourself and your proposal, followed by **15 minutes of questions and answers**.
>
> <u>These time limits will have to be strictly followed</u>.
>
> The panel members have studied the written documents that you submitted, so they are familiar with your proposal and your CV. To make best use of the available time, the bulk of the presentation should be devoted to the research project: its innovative and ground-breaking aspects, the methodology, the expected outcome and the potential contribution to the current state of the art in your field, the research team. The panel may also have questions about the budget you requested.

The Step 2 panel meetings are planned to take place in Brussels. However, the applicant interview will take place remotely. Details on the videoconferencing system and other practical details for the Step 2 interviews are indicated in your interview letter.

Please also note that any contact taken by a PI with an ERC expert during the evaluation period may result in the decision of ERCEA to exclude the proposal concerned from the call.

Details for electronic presentation:

Please note that you will present and show your slides from your computer. You will need to share your screen and not only the presentation in order to reduce the risk of technical issues. More information on this is indicated in your interview letter.

PANEL - ID	PE6
